Qualifications

Certified Scrum Master - Agile Velocity Course in Austin, TX

2 years of Agile Experience - Worked with highly functional teams to create deliverables in an agile work environment

Created Several Full Stack Dev Projects - Through Operation Spark and DXC, as well as side projects, have developed multiple full-stack projects with differentiating features

EXPERIENCE

DXC - Full Stack Software Engineer

Jan 2019-Current

(Development)

- Front end / Server development work in React for a real-time Indy car racing web application
 - Created User logins, User car feature selection, and Twilio automated messaging features
 - Based on these settings users would race against other cars in real-time on an SVG generated map that showed how they would place vs real racers on the track

(Project Management)

- Lead a team of data scientists to develop reporting views for internal company data with the use of SQL server viewed in PowerBI visualization. I also learned how to create visuals in PowerBI.
 - Figured out how to align data through primary/foreign keys that were unknown to the business
- Configured Confluence and Jira standards throughout the center in New Orleans, developing a daily cadence of Scrum Masters reporting to pre-emptively identify problems
- Built structures to create new offerings (capabilities) and oversaw the creation of 15+ new offerings for DXC

Accruent - SCRUM Master / Release Manager/ Software Engineer

Jan 2018-Jan 2019

- Starting as a developer, I did front end work for menu selections, date and time logic, and asset views for users
- Promoted to Scrum master and Release Manager overseeing four teams on 3 different healthcare products
 - Improved multiple pod metrics, developed and stabilized release process, pushed and achieved forward-thinking product changes, consistently delivered milestones that customers rated highly

EDUCATION

Advanced Software Engineering Immersive Program - Operation Spark

2018

B.S. Financial Analysis - University of New Orleans

2017

Financial Analysis - Berlin School of Economics and Law

2015-16
